Contact Mike Ciocco if you have questions at [mjc@cataniaengineering.com](mailto:mjc@cataniaengineering.com)

**Topic: SEPTA Villanova Train Station Site Tour and Presentation**

**Presented By: Steve Rubino, Project Manager/Estimator, Road-Con**

The Villanova Train Station Improvement Phase 1 Project was let in the spring of 2016 in order to provide handicap access to both the Inbound & Outbound sides from the SEPTA parking lot. The improvements included an additional parking lot, new handicap ramps on both sides of the track. A new pedestrian tunnel under the active railroad tracks is replacing the smaller existing brick tunnel. LED lighting will replace the old platform light fixtures. Phase 2 Improvements are currently under design to provide a canopy and high level platforms after the Phase 1 Project is complete.

*We anticipate that the Dinner meeting will satisfy the Pennsylvania Professional Licensing Renewal requirements for 1 PDH.*
