

American Society of Highway Engineers

Delaware Valley Section TECHNICAL SESSION RESERVATION FORM

PennDOT's Stormwater Control Measures Inspections & Maintenance Program

Wednesday, February 20, 2019 4:00 — 6:00 PM

Radisson Hotel, King of Prussia

Follow the signs to room once you arrive

Presented by:

Susan Giannantonio, PE, CPESC

NTM Engineering, Inc.

PennDOT installs Stormwater Control Measures (SCMs) to control stormwater runoff from the highway system and supporting facilities owned by the Department. SCMs are physical features designed to slow down, reduce, and/or treat stormwater runoff before it enters waterbodies and groundwater. These features are a subset of Best Management Practices (BMPs), which are effective and practical means of preventing or minimizing pollution.

Once constructed, SCMs require routine maintenance, periodic inspections, and as-needed corrective maintenance to ensure they continue to function as designed. In compliance with PaDEP's NPDES and MS4 permitting requirements, PennDOT is poised to release a new publication outlining the Department's new standardized SCMs inspections and maintenance program. The presentation will highlight the key components of the program including the SCM inventory database, field inspections, and various maintenance activities.

Session is FREE for ASHE DelVal Members

There will be a \$40 charge for all non-governmental employees, who also are not ASHE (DelVal) Members

RESERVATION DEADLINE 2/15/19

(Check or cash collected at the door-separate from the dinner fee)

Due to high demand space is limited to the first 100 people; you **MUST** reserve a space to attend the ASHE Technical Session.
